

ICDTP Bed Availability Report

The California Department of Corrections and Rehabilitation, Office of Substance Abuse Treatment Services (OSATS) is funded for 1800 In-Custody Drug Treatment Program (ICDTP) participants daily. The ICDTP bed availability report format was created to manage the population for both community and jail programs. There are two reports that show on a daily basis the number of available ICDTP beds.

ICDTP Referral Status

To all Deputy Commissioners and Valdivia Parole Administrators:

The ICDTP has experienced a steady increase in the number of program participants. The budget for ICDTP provides funding to support 1800 participants daily, today's participant count is **1982**. To properly manage the ICDTP budget, personnel engaged in the ICDTP referral, endorsement and placement process will on occasion be required to limit or suspend endorsement activities until the ICDTP program census decreases to a census level that aligns with the budget allowance for participants. To facilitate informed decisions, OSATS will provide all relevant personnel with the "ICDTP Referral Status" form on a daily basis. The ICDTP Referral Status form indicates that new program referrals are or are not being accepted. This information will enable you to make fully informed Probable Cause Hearing (PCH) decisions on the placement of individuals into the ICDTP.

NOTE: OSATS will allow all participants endorsed before the suspension notification to continue through the process to treatment programming. Conversely, all participants endorsed to ICDTP after the suspension notification date must be referred back to the BPH for a new hearing unless the individuals have been placed and have begun programming. In continuous communication and collaboration with our partners, OSATS believes that efficient and effective management of the FY 1009-1020 budget and the ICDTP population will be achievable. Please feel free to contact your Program Manager with questions or concerns.

Date: 12-3-09

Region I - Community referrals are limited to 10 per week until further notice. Continue jail referrals as usual.

Region II - Community referrals are limited to 10 per week until further notice. Continue jail referrals as usual.

Region III - Referrals are NO LONGER LIMITED please begin regular referrals to Region III.

Region IV - Please CONTINUE referring participants to the ICDTP Program for jail and community beds.
